PRODUCTS WE DEAL IN

ABOUT OUR COMPANY

Arc Engineering came into being in the year 2002 and is situated in the city of Pune in Maharashtra, India. We are an ISO: 9001:2008 quality certified company engaged in the Manufacture and Supply of Industrial equipment. Our CEO, Mr. Anil Choudhary is a Mechanical Engineer and has 2 decades of experience in same field. He has guided and motivated us in our journey.

Operations :

We cater to a wide clientele in India and we look forward to expending our business internationally. We offer our products in excellent packing using Corrugated Paper sheet, PP film, sunpack sheet, wooden plank and crates. We ensure timely delivery of our products which is appreciated by our clients.

Manufacturing Unit :

Our Manufacturing Unit is spread over an area of 5000 sq.ft and is well equipped with the latest machinery. We have a Production Capacity of 1000 kg per day. We also have Customized Production Facility. Our advanced testing facilities are extremely important to our company. We use high quality raw materials like

- Sheet material
- M.S. /S.S.
- Alloy steel
- Structural steels

Quality :

We give high importance to the quality of our products. We are an ISO: 9001:2008 quality certified company and our products are in compliance with the Industry Standards. The products we offer are quality tested under the supervision of our team of experts. We test the products on parameters like

- Durability
- Strength
- Finish
- Dimensional accuracy

MS Gratings

We amongst the leading manufacturers and suppliers of a precision engineered range of MS Gratings. These gratings are manufactured using innovative technologies to ensure that our offerings are of premium class. Available in custom specifications according to the the needs which suitable for extensive applications in varied industries such as construction, automotive and ancillary, electrical & material handling equipment and robotics machines manufacturing industries. Our category features products such as MS Grating's Nomenclature, ARC-40 x 100, ARC – 40 x 50, ARC Stair Treads and similar other products.

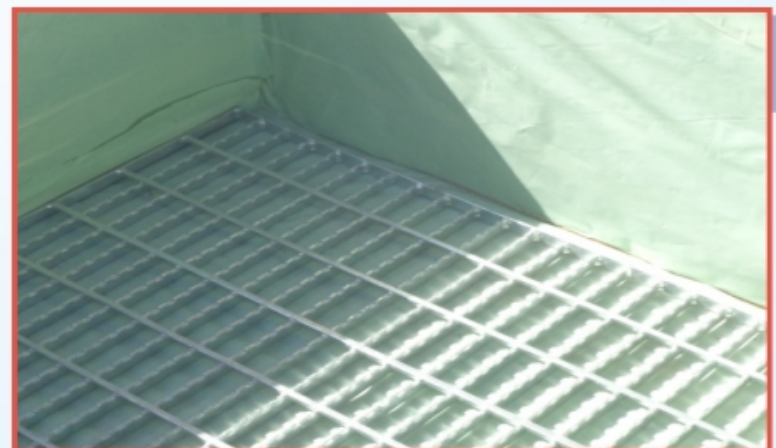

MS Gratings Serrated Antiskid	MS Gratings	Mild Steel Profile Grating
Mild Steel Gratings	Trench Grating	MS Grating
MS Intermesh Profile Grating	ARC MS- 40x100	ARC MS - 40x50 Grating
ARC MS -35x100	ARC MS- 30x100	ARC MS- 30x50
ARC MS- 40x40	Intermesh Gratings In 40x100 Mm Mesh	Honeycomb (Zigzag) Gratings

Mild Steel Gratings

We being one of the leading manufacturer and supplier in the domain, we manufactured Mild Steel Grating for our clients. These nomenclature comprises of bearing bar, cross Bar and frame bar. Frame bars are usually built for bearing heavy loads. They usually are 5mm - 6mm- 8mm thick. Number of bearing bars are placed in the spacing of 5mm / 30mm / 35mm / 40mm / 50mm depending on the equally divided load and span gratings. Our range is manufactured utilizing high grade steel(as per IS:2062 Grade &other equivalent Standards).

Features:

- Cost effective
- Low maintenance
- Long lasting serving life
- Corrosion resistant
- Heat resistant
- Can hold under extreme conditions
- Dimensionally accurate
- Rates of gratings are in the range of Rs. 1200 to 3500 per Sq. mtrs depend on construction details

Trench Grating

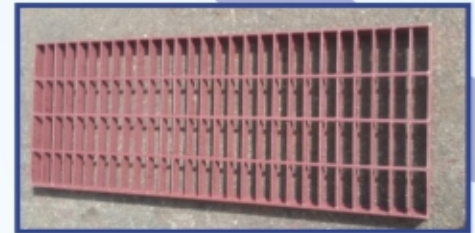

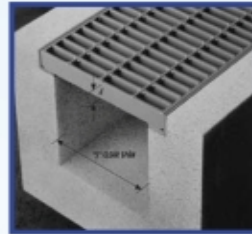

We are widely appreciated by our various customers for providing them with an extensive range of quality Trench Grating. Supremely light in weight and having a uniform, standard and even design, this grating can be used in various industries for various purposes. Made from rust proof and long lasting material, this grating can also be availed from us at the most comprehensive and market leading price range.

Following are the features of this range:

- Easy to combine with any embed frame
- Open ends are trench banded
- Maximize drain capacity
- Hot dip galvanized after fabrication
- Thick bearing bars for sturdiness

Other Information

- Pay Mode Terms: T/T (Bank Transfer)
- Minimum Order Quantity: 100 Sets
- Port of Dispatch: JNPT MUMBAI
- Production Capacity: 5 ton per day
- Packaging Details: Wooden boxes or Binding Strips Packet.
- Rates 1200 to 3500 per sq. mtrs.as per load carrying capacity

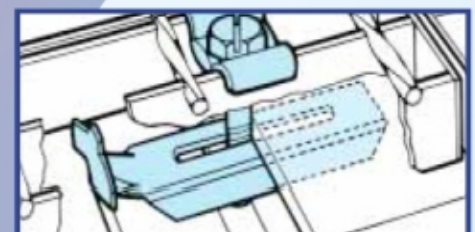

Grating Clamps

WE are manufacturer of Various types of clamps to be used for Grating erection purpose .Grating clamp set consist of Saddle clamp,W clamp & M8*40/50 or as suits Fastner. Gratings are duly Hot dip galvanized & available in 30/33/35/38/40/50 mm CD as general requirements for Grating fitting to structure. Our clamps are Heavy duty in 2.5 mm tk W clamp & 2 mm tk Saddle clamp.in IS 513 grade steel sheet.Fastners are Galvanized or Electroplated can be supplied.

Gratings are to be fitted to structure by one of following method

- Gratings are to be fitted directly Welded to structure
- Gratings can be fitted on Structure with W clamp & self tapping bolt by drilling on structure.
- Gratings can be fitted on Structure with W clamp With saddle clamp by nutbolt tightening.
- BY use of grating's clamp , WE can easily Remove & assemble gratings to the structure With ease of operation.
- Rate 22/- set EX works Pune

SS Gratings

We are backed by our expertise in this domain, we offer our valued customers SS Gratings. Manufactured us within our facilities Stainless Steel Gratings of extremely high quality known for its anticorrosive nature and minimum carbide precipitation. Made of stainless steel these are long lasting. It is composed using chemical compounds to make them an economical option. We procure raw material from reliable vendor base to ensure that our gratings meet our quality standard and fully satisfy our customers.

We have kept in our store a versatile collection of SS Gratings mend to use in chemical industries, processing plants, Food industries, automobile industries's paint plant and others. All our products are manufactured using excellent quality metal, employing latest machinery tools and advanced technology. To cope up with the varied clients demands, we offer them in various shapes and sizes in affordable prices. WE generally Mfg. gratings in SS304 /SS 316 grade material. For acidic condition use WE prefer SS316 grade & for Normal use SS304 suitable .WE Mfg. TOP surface of Gratings Plain ,Serrated(due to Serration ,Gratings are Anti slip).SS Gratings are mfg.in any Height e.g. 20/25/30/35/40/50/60 mm & Thickness 2/3/4/5/6 mm.WE mostly mfg. Customized Design & Also WE can Provide Economical design for the same. WE also Provide complete solution of Drain i.e. Drain channel plus Gratings mostly for Food, Construction & Pharmaceutical Industries.

Features:

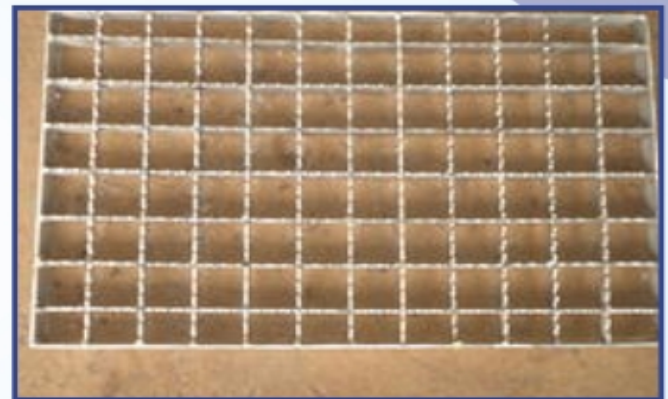

- Good durability
- Made as per customer satisfaction
- Heavy duty
- Very long service life
- Handles extreme pressure
- Best Quality Raw matl. SS304/SS316

Specifications:

- Tough metal
- Flat panel
- Safe and used with ease
- Serrated Or Plain surface
- Intermesh design Mesh size 20*20 to 75*75 mm
from 20 mm ht to 50/75 mm ht of grates

Other Information

- Pay Mode Terms: D/A (Documents Against Acceptance)
- Minimum Order Quantity: 5 Square Meter
- Packaging Details: Wooden boxes pack

Drain Channel Plus Gratings

WE are offering Various solution in Draining System ,one of is Drain channel As per customer design With Plain or serrated gratings. Drain channel are with bottom/side outlet options can be supplied.Untill Date We have supplied Import substiute Drain channels with gratings Exactly With Same Quality Std as per World renowned companies. Also help Customers to reduce Cost in their Project work. Drain channel with grates can be mfg. in Mesh size 20*20 to 50*50 mm in SS304/SS316 for any load capacity.

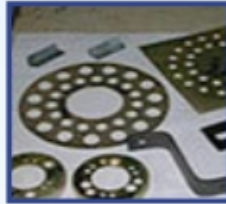

Kitchen Paper Roll Stand

Backed by the profound experience of the market, we have been able to offer Kitchen Paper Roll Stand. Our stands are widely appreciated by our clients for their efficiency, corrosion resistant, durability, reliability and optimum performance. These stands are available in standard as well as in customized forms as per the requirements of our clients. Paper roll are built with the use of fine quality raw materials. Our products under goes prior examinations to ensure quality won't be compromised.

Features:

- Durable
- Long lasting
- Optimum performance
- Light weight
- Comparatively Priced

Paper Holders Or Utility Stand

Utility stand in 7.5" and 9.5" length paper roll holding capacity model cutting plate nickel plated other stand powder coated black powder coated any shed can be possible. Best use in Kitchen & Utility Areas

FIFO Rack

Our organization is offering a wide collection of FIFO Racks to the clients in best quality. The equipments we offer have very high durability and very long lasting feature best to use in warehousing, distribution plants, industrial storage and other purposes. Designed in tandem with international quality standards, they are highly demanded by the clients due to their long lasting, fine workout in affordable prices.

Features:

Long lasting, Highly efficient, Easily installed, Smooth workout, Durable

Specifications:

Super Strength, Low maintenance, Efficient

Special Purpose Machine

WE are manufacturing Special Purpose Machines for Winding, Pick & Place, Welding automation operations WE are also do Press operations automation Please contact us for these needs WE will give proper solution at Economical way. Untill Today WE have succesfully help machines to copy there old imported machines for manufacturing same to same use with that quality of ease in Production reducing huge cost in importing machines for Indian operations. Now they rely on us for further expansion instead of importing machines. WE mfg. PL contolled Electromechanical SPMS With expertise in this field.

Platform Trolley

We are providing our valued clients with the best-in-class Platform Trolley. These products are acquired from the established vendors in the industry who are well known for their best-in-class raw material. Our industry provides the finest of platform trolley in affordable price mend to use in health care industry, distribution plants, warehousing and many others. Our Products are quality checked to ensure workout and to bring out flawless quality and durability before deliveries.

Features:

- High durability
- Easy installation
- Handles high pressure
- Very long lasting
- Easy maintenance

Specifications:

- Extreme fine finishings
- Super quality material
- Safety ensured

Welded Sub Assemblies With Machining

We are a well-known organization that is engaged in manufacturing and supplying a vast range of Welded Sub Assemblies With Machining. Our offerings are used for making crane & material handling equipment manufacturing industries, general purpose industries. We make sure that we successfully transform these steel assembly into duly weld & machining. Offered by us, these welded Sub Assemblies With Machining are fabricated using supreme grade raw material from our authentic vendor base to ensure that these are in accordance with international quality standards and norms.

Features :

- Dimensionally accurate
- Heat resistant
- Cost effective
- Low maintenance
- Long lasting serving life
- Corrosion resistant
- Can hold under extreme conditions

Other Information :

Pay Mode Terms: L/C (Letter of Credit), D/A (Documents Against Acceptance), T/T (Bank Transfer)

Backed by team of professional we offer these Welded Sub Assemblies With Machining for utilization by our clients. There are various types of welded assemblies manufactured in our production unit including machining such as turning, milling, jig boring, grinding, Press operations and others. These products are used for crane & material handling equipment manufacturing industries, general purpose industries . We are successfully transforming in steel assembly into duly weld & machining.

Assembly Work Station

Manufactured using the best available sources and metal, we have been exceptionally able to offer to our customers this Assembly Work station. The offered industrial equipment is widely used in various applications of easily working at the office. Provided with a stable desk and drawers, this work station is available with us in various sizes.

Following are the features of this range:

- Laminated ply covering
- Sophisticated color ply
- Longer life
- Corrosion proof metal legs
- Standard size and design
